

January 27, 2005

Dear Sirs:

It has come to my attention that there are several firms trying to change the "No Call" law that was put into place to protect us from unwanted calls. I urge you to work against changing the law and allowing credit card companies, banks or anyone else from being able to call us. These calls are always unnecessary and usually placed at inconvenient times and very intrusive into our lives. It has been our option to buy the phone and pay for the service; it is not right to give anyone the right to invade our privacy for their personal gain using our personal equipment and service. I will appreciate your attention on this matter have urge the petition presented to be vetoed or declared illegal.

Sincerely,

Lynnae McConaha
